Slouching Towards Gomorrah is a penetrating, devastatingly insightful exposé of a country in crisis at the end of the millennium, where the rise of modern liberalism, which stresses the dual forces of radical egalitarianism (the equality of outcomes rather than opportunities) and radical individualism (the drastic reduction of limits to personal gratification), has undermined our culture, our intellect, and our morality. Slouching Towards Gomorrah: Modern Liberalism and American Decline. By Robert H. Bork. Slouching Towards Gomorrah is a penetrating, devastatingly insightful exposé of a country in crisis at the end of the millennium, where the rise of modern liberalism, which stresses the dual forces of radical egalitarianism (the equality of outcomes rather than opportunities) and radical individualism (the drastic reduction of limits to personal gratification), has undermined our culture, our intellect, and our morality. In Robert H. Bork's Slouching Towards Gomorrah, one of our nation's most distinguished conservative scholars offers a prophetic and unprecedented view of a culture in decline, a nation in such serious moral trouble that its very foundation is crumbling. Of our own President, Bork writes: "Thirty years ago, Clinton's behavior would have been absolutely disqualifying."
