Restoring Ecological Health to Your Land. Handbook / Manual. Series: The Science and Practice of Ecological Restoration. By: Steven I Apfelbaum and Alan Haney. 240 pages, Figs. | About this book. This is the first practical guidebook to give restorationists and would be restorationists with little or no scientific training or background the 'how to' information and knowledge they need to plan and implement ecological restoration activities. The first part of the book introduces the process of ecological restoration in simple, easily understood language through specific examples drawn from the authors' experience in restoring their own lands. This book will assist private land owners, public land managers, and land conservancy stewards to design and execute restoration activities yielding ecologically significant results." Peter R. Stein, Managing Director, The Lyme Timber Company. "This down-to-earth book gives land owners the confidence and courage to initiate their own ecological restoration programs. The reader should be warned that Restoring Ecological Health to Your Land could easily inspire you to embark on a lifelong, learn-as-you-go adventure on your own land that's guaranteed to keep your brow sweaty, your knuckles dirty, The restoring ecological health to your land workbook. J Environ Qual. Jan-Feb 2013;42(1):293. doi: 10.2134/jeq2012.0005br. Steven I. Apfelbaum, Alan W. Haney. This is the first practical guidebook to give restorationists and would be restorationists with little or no scientific training or background the 'how to' information and knowledge they need to plan and implement ecological restoration activities. The first part of the book introduces the process of ecological restoration in simple, easily understood language through specific examples drawn from the authors' experience in restoring their own lands. The second half shows how that same 'thinking' and 'doing' can be applied to North America's major ecosystems
