Description:

From Publishers Weekly Tannen probes the way gender roles shape the ways men and women communicate in the workplace, and how these differences lead to misunderstandings.

From Library Journal Tannen (*You Just Don't Understand*, Morrow, 1990) describes differences in men's and women's public communication as found within the business setting. These differences appear to influence actual perceptions of worker skills and abilities. For example, women say "I'm sorry" without actually apologizing and tend to use an indirect manner of speech. These styles make women appear less confident,

competent, and professional. However, women who learn to speak like men are accused of being aggressive and unfeminine. Written for the general reader, Tannen's work is entertaining and filled with illustrative conversations. It raises many issues of concern to working women, from knocking against the glass ceiling to dealing with sexual harassment. Unfortunately, Tannen's research has not yet suggested any linguistic solutions. Highly recommended for general public and academic libraries.

As a working woman, reading this book gave me an advantage. After reading it, I find myself using a different communication style now with males at work than I do with females at work. At least now I am aware of how the "female" communication style I naturally use is probably being heard by my male superiors. Likewise, as a boss I've put this book, along with "Who Moved My Cheese?", on the reading list for new hires.Â In this fascinating book, Deborah Tannen explores how mismatched conversational styles affect women and men in the workplace. I highly recommend it for writers, as well as anyone who works with other people. Reading it explains so much about my own conversational styles. Read more. Men should treat women with as much respect and courtesy as a woman treats him with. 1. If a woman constantly tries to manipulate or deceive a man, then she doesnt deserve to be treated with respect. Shes a con artist and men dont have to be nice ...Â Shes a con artist and men dont have to be nice to con artist. If a woman some how gets to know the most intimate details of a man and uses those details to mentally abuse him, she deserves to be treated like shit. She deserves nothing good and look at what she did to a man who cared for her.Â Sometimes I'm so baffled at women I see, they walk it like they talk it, but only in front of people, and they dont actually walk genuinely like they talk , they create the illusion they are. Natural instinctive qualities are no excuse when it comes to a man. Empirical work has also highlighted the importance for such learners of more general pragmatic skills such as making small talk and using informal language to communicate solidarity and openness (Dahm & Yates, 2013;Gassner, 2013;Holmes, 2000;Newton, 2004). Once out in the community, they very quickly noticed that small talk and an attendant "joking around" was an important and regular part of communicating in Australia, particularly in the workplace. Indeed, previous studies have suggested its importance for both relational and transactional goals at work, and for the development and m
