

Flight Mechanics/Estimation Theory Symposium 1990: Proceedings of a Symposium Sponsored by NASA Goddard Space Flight Center ... Greenbelt, Maryland, May 22-24, 1990, , National Aeronautics and Space Administration, Office of Management, Scientific and Technical Information Division, 1990, 1990

Sponsored by... Sponsored by the Flight Dynamics Division of Goddard Space Flight Center, this symposium features technical papers on a wide range of issues related to orbit-attitude prediction, determination and control; attitude sensor calibration; attitude determination error analysis; attitude dynamics; and orbit decay and maneuver strategy. Government, industry, and the academic community participated in the preparation and presentation of these papers. Addeddate. 2016-09-26 01:08:07. Support team. The Goddard Space Flight Center (GSFC) is a major NASA space research laboratory located approximately 6.5 miles (10.5 km) northeast of Washington, D.C. in Greenbelt, Maryland, United States. Established on May 1, 1959 as NASA's first space flight center, GSFC employs approximately 10,000 civil servants and contractors. It is one of ten major NASA field centers, named in recognition of American rocket propulsion pioneer Robert H. Goddard. GSFC is partially within the former Goddard census-designated
