Built by a mad baron to bring notoriety to his town, only the brave or foolish would dare to enter Deathtrap Dungeon. Fabulous riches await the victor. Many adventurers have tried - none have come out alive! Built by a mad baron to bring notoriety to his town, only the brave or foolish would dare to enter Deathtrap Dungeon. Fabulous riches await the victor. Many adventurers have tried - none have come out alive! Deathtrap Dungeon is the latest 3D adventure game to include dynamic lighting. Dark damp corridors will be illuminated by torches, and if you cast a spell you'll see the floors and ceilings light up, while swinging chandeliers add to the atmosphere by throwing long shadows which warn you of enemy presence. This technology is being used increasingly in many new titles, and from what I saw I'd say that Deathtrap Dungeon's effects are right up there with the Dungeon Keepers and Into The Shadows of this world. Thank you for making use of this guide to Ian Livingstone's Deathtrap Dungeon. Hopefully, the walkthrough and the strategy suggestions it contains will help you get through the many challenging sections of what is overall quite a difficult adventure game. This is, as always, a work in progress.
