

CURRICULUM VITAE

Jouni Kuha

Department of Methodology and Department of Statistics
London School of Economics and Political Science
Houghton St, London WC2A 2AE, UK
j.kuha@lse.ac.uk

Education

M.Soc.Sc	Statistics	University of Helsinki	1992
Ph.D.	Social Statistics	University of Southampton	1996

Positions

2019 –	Professor of Social Statistics, London School of Economics and Political Science (LSE)
2013 – 2019	Associate Professor of Statistics and Research Methodology, LSE
2008 – 2013	Senior Lecturer in Statistics and Research Methodology, LSE
2001 – 2008	Lecturer in Statistics and Research Methodology, LSE
1999 – 2001	Assistant Professor of Statistics, Penn State University
1998 – 1999	Research Fellow, Nuffield College, University of Oxford
1995 – 1998	Prize Research Fellow, Nuffield College, University of Oxford
1991 – 1992	Assistant, Department of Statistics, University of Helsinki
1990	Research Assistant, Institute of Occupational Health, Helsinki

RESEARCH

Research interests

- Problems with measurement error, misclassification and missing data
- Latent variable modelling, especially of cross-national survey data
- Categorical data analysis
- Statistics for the social sciences

Research grants

- 2017–20 Methods for the Analysis of Longitudinal Dyadic Data with an Application to Intergenerational Exchanges of Family Support (*DyLANIE*) (co-investigator). Economic and Social Research Council (ESRC) and Engineering and Physical Sciences Research Council (EPSRC), £779K.
- 2014–16 Legal norms and crime control: A comparative, cross-national analysis (co-investigator). ESRC, £280K.
- 2013–14 Item Nonresponse and Measurement Error in Cross-National Surveys: Methods of Data Collection and Analysis (principal investigator). National Centre for Research Methods (NCRM) / ESRC, £192K.
- 2012–15 The Role of Education in Intergenerational Social Mobility (co-investigator). ESRC, £520K.
- 2012–15 New European Crimes and Trust-Based Policy (*Fiducia*) (co-investigator). European Union 7th Framework Programme (EU FP7), €2700K.
- 2010–12 Latent Variable Modelling of Categorical Data: Tools of Analysis for Cross-National Surveys (*LCAT*) (principal investigator). ESRC, £265K.
- 2008–11 Scientific Indicators of Confidence in Justice: Tools for Policy Assessment (*EuroJustis*) (co-investigator). EU FP7, €1500K.
- 2008–11 Sensitive Technologies and European Public Ethics (*STEPE*) (co-investigator). EU FP7, €690K.

Peer-reviewed articles

Selected Presentations at conferences and workshops

1. 'Latent variable models for intergenerational exchanges of family support'. International Meeting of the Psychometric Society, Santiago de Chile, July 2019 (joint work with Fiona Steele).
2. 'From social media samples to the social media population: A method for improving representativeness'. Workshop on Big Data in National Election Studies, University of Manchester, May 2018 (joint work with Jane Green, Edward Fieldhouse, Rachel Gibson, and Rosalyn Southern).
3. 'Latent variable modelling with non-ignorable item nonresponse: Cross-national analysis'. International Meeting of the Psychometric Society, Zurich, July 2017 (joint work with Myrsini Katsikatsou and Irini Moustaki).
4. 'A bootstrap method for estimating the sampling variation in point estimates from quota samples'. Conference on Inference from Non-Probability Samples, Sciences Po, Paris, March 2017 (joint work with Patrick Sturgis).
5. 'The inquiry into the 2015 pre-election polls: Preliminary findings and conclusions'. Contribution to the presentation of the findings of the inquiry panel, Royal Statistical Society, London, January 2016.
6. 'The effect of interviewer probing on item nonresponse and measurement error in cross-national surveys'. Conference of the European Survey Research Association, Reykjavik, July 2015 (joint work Sarah Butt, Myrsini Katsikatsou and Chris Skinner).
7. 'Equivalence of measurement in cross-national surveys: Definitions, questions and complications'. Workshop on Cross-National Survey Methods, LSE, London, December 2014 (joint work with Irini Moustaki).
8. 'The item count method for sensitive survey questions: Modelling criminal behaviour'. Conference of the European Survey Research Association, Ljubljana, July 2013 (joint work with Jonathan Jackson).
9. 'Public confidence in the criminal justice system: Cross-national measurement in the European Social Survey'. Conference of the European Society of Criminology, Bilbao, September 2012 (joint work with Jonathan Jackson).
10. 'Analysis of cross-national surveys: Latent variable modelling for substantive comparisons and assessment of measurement'. ESRC Research Methods Festival, Oxford, July 2012 (joint work with Irini Moustaki, Sally Stares, Jonathan Jackson and George Gaskell).
11. 'Group means as explanatory variables in multilevel models'. Conference in honour of Professor Emeritus David J. Bartholomew, LSE, London, December 2011 (joint work with Anders Skrondal and Stephen Fisher).
12. 'European attitudes towards the governance of biotechnologies: Who trusts whom?'. Conference of the European Survey Research Association, Lausanne, July 2011 (joint work with Nick Allum).
13. 'Getting it right on the night: The 2010 exit poll'. Conference of the Royal Statistical Society, Brighton, September 2010 (joint work with John Curtice and Stephen Fisher).

14. ‘Path analysis for discrete variables: the role of education in social mobility’. Joint meeting of the Social Statistics and General Applications Section, RSS, London (“Causality in Statistical Investigations”), May 2009 (joint work with John Goldthorpe).
15. ‘Scaling fear: Overcoming data complications in the development of indices’. Conference of the European Survey Research Association, Prague, June 2007 (joint work with Jonathan Jackson).
16. ‘Multilevel measurement error models for estimation of neighbourhood effects’. Conference of the European Association of Survey Research, Barcelona, July 2005.
17. ‘Models for logistic regression with misclassified response’. Meeting of the Nordic Region of the International Biometric Society, Uppsala, June 2003.
18. ‘Assessing lack of fit in loglinear models using the index of dissimilarity’. Meeting of ENAR/International Biometric Society, Chicago, March 2000 (joint work with David Firth).
19. ‘Measurement error in quadratic regression models’. ISI Conference, Helsinki, August 1999.
20. ‘Problems of model choice in the analysis of large scale data sets’. Conference on Statistical Issues in the Social Sciences, The Royal Swedish Academy of Sciences, Stockholm, October 1998 (joint work with David Cox, David Firth and John Goldthorpe).
21. ‘Handling measurement error and missing data in a joint modelling framework’. The Royal Statistical Society International Conference, University of Surrey, September 1996 (joint work with Chris Skinner).
22. ‘Models for validation data when adjusting for measurement error’. Joint Statistical Meetings, Chicago, August 1996 (joint work with Chris Skinner).
23. ‘Categorical data analysis and misclassification’. International Conference on Survey Measurement and Process Quality, Bristol, April 1995 (joint work with Chris Skinner).
24. ‘Some Monte Carlo methods of adjusting for covariate measurement error’. Workshop on Statistical Methods for Incomplete Covariate Data in Clinical and Epidemiological Studies, University of Freiburg, February 1995.
25. ‘Errors in variables in logistic regression: Application of two approximate models to dietary data’. 4th Meeting on Nutritional Epidemiology, Berlin, October 1992.

99 other conference and seminar presentations in Amsterdam, Ann Arbor, Bath, Belfast, Cambridge, Colchester, Dortmund, Durham NH, Edinburgh, Glasgow, Gothenburg, Hamilton, Helsinki, Jyväskylä, Lancaster, Leiden, Ljubljana, London, Manchester, Minneapolis, Munich, New York, Orono ME, Orvieto, Oxford, Reading, Santiago de Compostela, Seattle, Southampton, State College PA, Stockholm, Storrs CT, Tilburg, Uppsala, Warwick, and Waterloo.

TEACHING

Courses taught

*Full courses at the LSE (**4** and **5** codes indicate postgraduate courses):*

Introduction to Quantitative Analysis (MI411, MI451, MY451)	2005, 10, 14, 20
Introduction to Quantitative Methods for Media and Communications (MY464)	2020
Intermediate Quantitative Analysis (MY465)	2015
Applied Regression Analysis (MI412, MI452, MY452)	2001–3, 06, 08, 10–11, 13–15
Multivariate Analysis and Measurement (MI413, MI455, MY455, ST405)	2002–8, 10–11, 13, 15–16, 18–21
Survey Methodology (MY456)	2012–14, 18–19
Regression Models for Discrete Response Variables (MI456)	2006–7
Event History Analysis (MI456)	2008, 10
Fundamentals of Social Science Research Design (MY400)	2015
Generalised Linear Modelling and Survival Analysis (ST411)	2019–20
Multilevel and Longitudinal Modelling (ST416)	2002–5, 13
Surveys and Experiments in Social Research (ST415)	2002–8
Statistical Modelling and Data Analysis (ST505)	2019–20
Elementary Statistical Theory (ST102)	2010–12
Research Methods for Studies in Global Management (MG449)	2019
Statistics in Society (SO102)	2013–16, 17–18
LSE100 - The LSE Course (LSE100)	2015

Full courses elsewhere:

University of Oxford:	
Advanced Social Statistics	1998, 2003
Penn State University:	
Statistical Model Assessment and Model Choice (STAT597E)	1999
Applied Regression Analysis (STAT462)	2000
Categorical Data Analysis (STAT544)	2000
Survival Analysis (STAT525)	2001

Short courses:

Models for Longitudinal and Clustered Data. ESRC Spring School, Office for National Statistics (2004); LSE (2005)

Introduction to Random Effects Models for Panel Data. Oxford Spring School (2009)

Analysis of Survey Data (Latent Variable Models) and Cross-National Social Surveys. Methodology Centre for Human Sciences (IHME), University of Jyväskylä (2009)

Survey Methodology. LSE Methods Summer Programme (2011–14)

Latent Variable Modelling of Categorical Data: Tools of Analysis for Cross-National Surveys. Total of 7 times in LSE, Manchester, Edinburgh, and the Royal Statistical Society (2012–14)

Cross-National Survey Data: Sources, Nature and Uses. NCRM Autumn School, Southampton (2013)

Event History Analysis. Department of Methodology short course series, LSE (2015)

Statistical Analysis with Missing Data. Department of Methodology short course series, LSE (2019)

PhD supervisees with completed doctorates (all at the LSE)

1. Sally Stares. PhD in Social Psychology, 2008 (jointly supervised with George Gaskell): ‘Latent trait and latent class models in survey analysis: Case studies in public perceptions of biotechnology’.
2. Katrin Hohl. PhD in Social Research Methods, 2012 (jointly supervised with George Gaskell): ‘The role of mass media and police communication in trust in the police: New approaches to the analysis of survey and media data’.
3. Yehuda Dayan. PhD in Statistics, 2014: ‘A structured approach to web panel surveys: The use of a sequential framework for non-random survey sampling inference’.
4. Michael Blackwell. PhD in Social Research Methods, 2014 (jointly supervised with Linda Mulcahy): ‘Diversity and its impact: An empirical study of the English courts and legal professions’.
5. Arnaud Vaganay. PhD in Social Research Methods, 2015: ‘Evidence-based policy or policy-based evidence? The effect of policy commitment on government-sponsored evaluation in Britain (1997-2010)’.
6. Ben Wilson. PhD in Social Policy (Population Studies), 2015 (jointly supervised with Wendy Sigle): ‘Origin, destination and convergence: Understanding the fertility of international migrants and their ancestors’.
7. Yew Ding. PhD in Social Research Methods, 2017 (jointly supervised with Mike Murphy): ‘Pathways to frailty and its adverse outcomes: Evidence from the English Longitudinal Study of Ageing’.
8. Tayfun Terzi. PhD in Statistics, 2017 (jointly supervised with Chris Skinner): ‘Detecting semi-plausible response patterns’.

PhD examining

Examiner of 12 doctoral theses at LSE (×4), Copenhagen, Helsinki, Jyväskylä (×2), London School of Hygiene and Tropical Medicine (×2), Oxford, and Tilburg.

SERVICE

Professional service

Joint Editor, <i>Journal of the Royal Statistical Society, Series A</i>	2019–
Associate Editor, <i>Journal of the Royal Statistical Society, Series A</i>	2018
Associate Editor, <i>Psychometrika</i>	2016–18
Associate Editor, <i>British Journal of Mathematical and Statistical Psychology</i>	2013–15
Associate Editor, <i>Journal of the Royal Statistical Society, Series C</i>	2009–12
Associate Editor, <i>Statistics and its Interface</i>	2007–13
Chair (2010–12) and member of the Social Statistics section committee, The Royal Statistical Society	2006–12
Member of the ESRC Peer Review College	2012–
Member of Review Panel 1, Riksbankens Jubileumsfond (The Swedish Foundation for Humanities and Social Sciences)	2016–20
Member of the Methodology Advisory Committee, Understanding Society survey	2014–19
Member of the Government Statistical Service Methodology Advisory Committee	2010–17
Member of the BPC/MRS inquiry panel on General Election opinion polls	2015–16
Member of the Advisory Group, BBC Media Action Global Grant	2014–16
Member of the Research Advisory Group, The Scottish Community Engagement Trial	2013–14
Expert witness to the House of Lords Select Committee on Political polling and digital media	2017

Reviewed grant applications for the Economic and Social Research Council and the National Centre for Research Methods (UK), Social Sciences and Humanities Research Council (Canada), Deutsche Forschungsgemeinschaft (Germany), Netherlands Organisation for Scientific Research, Vetenskapsrådet (Sweden), and the European Science Foundation, and a docenture application for the University of Helsinki (Finland).

External examiner for:

- Undergraduate courses in Statistics, University of Southampton, 2011–14

University service at the LSE

Service to the School:

Member of the Financial Awards Panel	2002–8
Member of the Data Advisory Body	2004–8
Member of the Survey Review Group	2007
Member of the Research Staff Committee	2010–13
Member of the Advisory group of the LSE Research Festival	2013–14
Member of the Annual review board of the LSE Doctoral Training Centre	2014–16
Member of the Research Development Panel	2015–20
Member of the Senior Common Room Committee	2018–
Member of the Advisory board, Course Selection Change Project	2019–20

Departmental service, Department of Statistics:

Member of the Teaching Committee	2005–8; 17–
Programme Director and Chair of the Sub-Board of Examiners, MSc Statistics	2007–8; 17–18
Programme Director and Chair of the Sub-Board of Examiners, MSc Statistics (Social Statistics)	2017–
Academic Board representative	2010–14

Departmental service, Department of Methodology:

MSc Selector, MSc Social Research Methods (Statistics)	2001–6
Programme Director and MSc selector, MSc Social Research Methods	2007–8; 09–11
Doctoral Programme Director	2011–15; 17–19
Academic Board representative	2010–13
Chair of the Sub-Board of Examiners, MSc Social Research Methods	2015–16
Chair of the Quantitative Teaching Committee	2011–14; 17–18
Chair of the Teaching Committee	2019–21
Deputy Head of Department	2012–14; 18–21
Head of Department	2014–15

Methodology. Standard country or area codes for statistical use (M49). This is the online version of the United Nations publication "Standard Country or Area Codes for Statistical Use" originally published as Series M, No. 49 and now commonly referred to as the M49 standard. The print version of the standard was issued last in 1999 and previously in 1996, 1982, 1975 and 1970. M49 is prepared by the Statistics Division of the United Nations Secretariat primarily for use in its publications and databases. We facilitate the coordination of international statistical activities and support the functioning of the United Nations Statistical Commission as the apex entity of the global statistical system. The department conducts statistical and methodological research on: Bayesian statistical analysis of high-dimensional data (genetics, neuro-imaging), specifically Bayesian variable selection and Bayesian non parametric methods. New methods for detecting person by situation interactions. Critical assessment of conventional methodological practice in psychological research. Our colleagues from the Methodology and Statistics dept. of the Faculty of Health, Medicine and Life sciences, with whom we cooperate, furthermore conduct research on: Optimal design and sample sizes for nested designs, longitudinal studies and surveys. Multilevel reliability and agreement analyses with covariates. Department of Statistics has following Statistical Softwares ->Statistical Application Software (SAS) ->Statistical Package for Social Sciences (SPSS) ->Minitab The students are being trained in other prominent statistical software packages such as veka, SQL for Data Mining. Library. Jawaharlal Nehru Library at the Vidyanagari Campus is well equipped with Statistics books, journals and periodicals. The students enrolled in the Department can avail of both reading as well as lending facilities offered by the library. However, students enrolled in other postgraduate centers can only avail of reading. The Department of Statistics is one of the world's leading centres for research in Statistical Science. Research activity spans a wide range of modern and exciting developments in the subject. Computational Statistics & Machine Learning. Read More. Probability. Read More. Statistical Genetics. Read More. Department of Research Methodology, Measurement and Data Analysis (UT). Statistics Netherlands. The collaboration between these departments provides you with an exceptionally broad range of internship opportunities and thesis topics focused on the following fields: Behavioural Sciences | Biomedical Sciences | Social Sciences. This programme is ranked as one of the top-ten Master's in the Netherlands, and in addition the professors in the Methodology and Statistics department are experts in their respective fields. It really is a great chance to learn from the best! Prof. dr. Irene Klugkist.
