According to Paul Backholer, author of the book *The Ark of the Covenant, Investigating the Ten Leading Claims: Including Pharaoh Shishak's Siege of Solomon's Temple, Ethiopia's Ark & the Garden Tomb*, finding historical or archaeological evidence that Pharaoh Shishak plundered King Solomon's temple, is a complicated issue. Backholer writes that "grave robbers are sometimes as infamous as the pharaohs, for they managed to search out and empty the royal tombs of their wealth. In fact, the situation was so bad that Egyptian priests eventually gathered and hid away the mummified bodies of their pharaohs." Following publication of the 1982 book *The Holy Book and The Holy Grail* written by Baigent, Leigh and Lincoln, theories came up suggesting that the Chapel was a reproduction of Solomon's Temple, where the Ark was originally stored in its glorious days. Could this small, innocent place of worship just be a reminder of Israel's past, or is there a deeper, hidden connection? [1].
