Description:

Transformative justice seeks to solve the problem of violence at the grassroots level, without relying on punishment, incarceration, or policing. Community-based approaches to preventing crime and repairing its damage have existed for centuries. However, in the putative atmosphere of contemporary criminal justice systems, they are often marginalized and operate under the radar. Beyond Survival puts these strategies front and center as real alternatives to today's failed models of confinement and "correction." In this collection, a diverse group of authors focuses on concrete and

practical forms of redress and accountability, assessing existing practices and marking paths forward. They use a variety of forms--from toolkits to personal essays--to delve deeply into the "how to" of transformative justice, providing alternatives to calling the police, ways to support people having mental health crises, stories of community-based murder investigations, and much more. At the same time, they document the history of this radical movement, creating space for long-time organizers to reflect on victories, struggles, mistakes, and transformations.

Their vision of Transformative Justice is that if implemented widely and over time, it will build community safety systems that can function independently of the criminal justice system. The essays are first-hand accounts describing approaches for responding to and preventing violence and abuse without police and prisons. The reflections of the writers provide practical strategies for building community safety. The final chapters of Beyond Survival are reflections on the beginnings of the TJ movement, provide an assessment of the present moment of this work mid-movement, and offer insights into how the movement will move forward. Origins of the TJ Process.
