A Suspenseful Adventure. Published by Thriftbooks.com User , 12 years ago. This captivating novel moves with dizzying speed. The plot twists so fast that you don't want to put it down because you know there is going to be another surprise on the next page.Â I loved The Shopkeeper and I liked The Shut Mouth Society even more. It's full of adventure and suspense , but always remains believable. Besides being a fun book, I enjoyed the way American history was intertwined with an exciting story. The history of Lincoln and the Civil War period was a real asset to the book. I also like the way the story moves all over the United States because I have been in many of the locations.
