Fishing Spiders 101. Six spotted fishing spider (Photo: Patrick Randall, Flickr Photo Sharing). "Eek...They're Big Enough to Saddle Up and Ride!". Have you ever been near the water's edge and seen very large spiders that are hanging out in or on the water? If you're in the Eastern United States near fresh water or brackish water, then you've most likely met the common fishing spider also called dock spiders or wharf spiders. At our rowing boat house we call them launch spiders too.
