Book details. Table of contents. About This Book. A thoroughly updated history of the legendary French Foreign Legion by the bestselling author of Who Dares Wins.Â March or Die also traces the Legion's diminished fortunes in recent years. It has fought in the Gulf War, Rwanda and Kosovo among other conflicts, but has found itself in 'a world of political correctness which left the Legion marooned on an island of admirable but anachronistic values'. Forced to accept women in its ranks and no longer unique now that conscription has been abolished, it is searching for its place in the modern world.
