Generally, we used to quit the job which put us in an unhappy environment. As like in Home, being happy at the workplace is also a necessary one. Because daily we spend nearly 8-10 hours at the office. Your job is what you do for the rest of your life until the day that you retire of old age and die. You should be satisfied with your work and enjoy doing it. Look for a job that interests you, it may not pay as. Quitting your job and pursuing your passion, such as starting your own side business, writing your own book or establishing your own dance studio, will all drain your bank account and your emotional reserves. How can you push through and continue moving forward? You do this by bootstrapping and making do with what you have. It had been a simple mistyped line of code which sent a massive print job out totally wrong. I learn how I should have done it and I fretted. My boss asked me to step into his office, he asked me to sit down. Do you know what you did?
