Description:

From Scientific American Innovative and fresh Rather than portraying the syndrome as a crippling disease, Thom Hartmann demonstrates that ADD can be associated with creativity, high achievement, and a most successful adaptive style. -- This text refers to an out of print or unavailable edition of this title.

Review Thom Hartmann demonstrates that ADD can be associated with creativity, high achievement, and a most successful adaptive style." -- Edward Hallowell, MD and John Ratey, MD, authors of "Driven to Distraction. "This book...indicates that uncritical acceptance of the notion of ADD may conceal the need for basic reforms in our nation's public schools. -- *Jay C. Fikes, Ph.D., Cultural Anthropologist*--This text refers

to an alternate edition.

From the Back Cover. Attention Deficit Disorder: A Different Perception answers these important questions: 1. Can drugs "cure" Attention Deficit Disorder? 2. Why are some ADD children and adults more successful than their "normal" peers? 3. What professions are best for ADD people? About the Author. Thom Hartmann is the former executive director of a residential treatment facility for abused and emotional disturbed children, and the author of five books on Attention Deficit Disorder. So how did this powerful set of Hunter skills come to be labeled as a disorder? Historically, societies have viewed people whose behaviors they didn't understand, or which weren't "the norm," as inferior. Read more. Topics. Attention-deficit disorder in adults, Attention-deficit hyperactivity disorder. Publisher. Grass Valley, CA : Underwood Books. There are many different types and brands of these medications—all with potential benefits and side effects. Sometimes several different medications or dosages must be tried before finding the one that works for a particular person. Anyone taking medications must be monitored closely and carefully by their prescribing doctor. The National Resource Center on ADHD, a program of Children and Adults with Attention Deficit/Hyperactivity Disorder (CHADD®) supported by the Centers for Disease Control and Prevention (CDC), has information and many resources. You can reach this center online at <https://chadd.org/nrc> or by phone at 1-866-200-8098.
