

Occupational and Environmental Lung Diseases: Diseases from Work, Home, Outdoor and Other Exposures; Susan Tarlo, Paul Cullinan, Benoit B. Nemery; 2011; John Wiley & Sons, 2011; 492 pages; 9781119957225

Unlike other books on the subject, this new volume approaches occupational and environmental lung disease from the starting point of the patient who comes to the physician with respiratory symptoms. The authors recognize that potentially harmful exposures occur not only in the work environment, but also as a result of hobbies or other leisure activities, or from outdoor air pollution, and it is up to the physician to identify whether a particular job or hobby is the cause of the patient's respiratory symptoms. To help you arrive at a differential diagnosis, chapters in the book are arranged by job. Documents both environmental and work-related causes of lung disease. Unlike other books on the subject, this new volume approaches occupational and environmental lung disease from the starting point of the patient who comes to the physician with respiratory symptoms. Product Identifiers. Publisher. Wiley-Blackwell, John Wiley & Sons AND Sons LTD. ISBN-10. 0470515945. Dr. Susan Tarlo, MD, Gage Occupational and Environmental Health Unit, Department of Medicine, Toronto Western Hospital, University of Toronto, CANADA. Professor Paul Cullinan, Professor in Respiratory Epidemiology at the National Heart and Lung Institute and Honorary Consultant Physician in Respiratory Medicine at Royal Brompton Hospital, London. Documents both environmental and work-related causes of lung disease. Unlike other books on the subject, this new volume approaches occupational and environmental lung disease from the starting point of the patient who comes to the physician with respiratory symptoms.
