Among his recent books are The Civil Sphere and The Performance of Politics: Obamas Victory and the Democratic Struggle for Power. Iconic Power is a collection of original articles that explores social aspects of the phenomenon of icon. Having experienced the benefits and realized the limitations of so called "linguistic turn," sociology has recently acknowledged a need to further expand its horizons. "Visual sociology" is emerging as a separate field and prominent scholars announce the coming of "the pictorial turn." The methods and themes taken up in these studies respond to this shift in social scientific interest. Each contribution to this book carefully tests the analytic purchase and empirical implications of iconic
